ACADEMIC PROJECTS

CDAC Project - Online Cab Booking (Justcabs) (12/2021 - 05/2022)

- It provides an efficient solution for convenient cab services. It enables customers to effortlessly select and book cabs based on driver ratings, complete secure online payments, and rate their rides for feedback.
- Owners can register drivers and cars, and the admin has the authority to approve owner and driver registrations. The project aims to streamline the cab booking process, ensuring a seamless experience for both passengers and drivers, ultimately enhancing the overall efficiency of the transportation service.

BE Project - Automatic Covid Detection using CT Images (12/2021 - 05/2022)

- It is the system through which a CT image will be uploaded. Further system will analyze the uploaded image and Next, it will give us the perfect outcome. It will provide advice such that he/she has to take emergency treatment, or just to have home quarantine, etc and based on the results obtained, necessary actions can be taken.
